LFP03.2 Environmental Policy Statement

(ISO 14001:2015 Clause 5.2)

Light Forms Ltd has established this environmental policy to be consistent with the purpose and context of our organisation.

Our policy considers the impact of the Company's activities on both the local and wider communities and will take account of transportation of materials, use of energy and the discharge of emissions and waste on completion of works.

Light Forms Ltd endeavours to:

- Protect the environment, including the prevention of pollution
- To use sustainable resources and mitigate climate change
- Strive to identify and , wherever possible, use materials which reduce the risk of pollution
- Recycle / reuse materials wherever practical
- Minimise the environmental impact, for the life cycle (including disposal) of all products, equipment, and other physical assets under our control.

Light Forms Ltd will look achieve these commitments by:

- Implementing and maintaining our Environmental Management System that is independently certified as compliant with ISO 14001:2015;
- Maintaining effective systems of communication and consultation on environmental issues with all employees and other persons affected by the organisation's activities.

The appropriateness and effectiveness of this policy, and the means identified within it for delivering the organisation's commitments, will be regularly reviewed by Top Management

Our policy is also to meet the requirements of other interested parties and in meeting our social, environmental, regulatory and legislative responsibilities.

We have produced environmental objectives relating to this policy documented in LFF01.2 Environmental Management System Objectives.

This policy is available / communicated to all interested parties as well as being made available to the wider community through publication on our Website, Company Noticeboard and Intranet.
