Coronavirus (COVID-19) update

Light Forms UK operates a COVID-Secure workplace, closely monitoring UK Government guidelines and directives and complying with them.

In order to minimise disruption to production, maintain deliveries to our customers and protect jobs, we continue to manufacture safely. We recognise that the situation is changing rapidly and will respond to it as quickly as possible, if not anticipate it.

Social distancing and enhanced hygiene measures are in place throughout the factory and offices to minimise risks and avoid spreading the virus. Our workforce receives regular briefings about the situation, including up-to-date advice on health and hygiene awareness. Meanwhile, those who can work from home continue to do so.

Light Forms is a customer-focused company. We will do all we can to support our customers during these unprecedented times, balancing it with doing our very best to protect the health of our workforce, their families and to society. So, for any temporary disruptions that do occur we apologise and ask for understanding as we do our best to navigate through this challenging time.

Our very best wishes to all our customers and suppliers, your families and communities for a safe, healthy year ahead and a return to happiness and prosperity as soon as possible.
