

AstralPlane

AP-LED
1203mm x 303mm

LIGHT FORMS

Linear

The AsterLine is a cost-effective luminous panel luminaire with direct light distribution. It can be either suspended or surface-mounted, making it versatile for various applications. Available as a standalone single-panel fixture or as part of a multi-panel configuration for extended runs of any length. Multi-panel runs are enabled through the use of blank joiner sections.

Features

- Individual luminaires or continuous runs
- Custom extruded
- Direct distribution tubing available for continuous runs, breaks, and extended end caps
- One standard output options
- Tunable white and RGBW
- Remote control gear as standard
- DALI, 1-10V, Wireless and phase dimming
- Smooth dimming down to 0%
- <1% output ripple current for exceptional light quality
- Remote sensors available, including DALI/DSI digital dimming and daylight harvesting
