LP 3.5R-LED  
128mm x 97mm

**LIGHT FORMS**

Linear

Lightplane 3.5 Recessed is a low-profile, 89mm recessed slot light. The luminaire can be installed both vertically and horizontally to form continuous or individual rows. Available with several LED lamping options including multiple outputs, CCTs, tunable white, and colour-changing RGB+White. A Low UGR option is also available with prismatic lens.

## Features

Individual luminaires, continuous runs or configured shapes

Direct distribution

Four standard output options

Tunable white and RGBW

Integral control gear as standard

DALI, 1-10V, Wireless and phase dimming

Low UGR lighting: Prismatic diffuser

Smooth dimming down to 0%

<1% output ripple current for exceptional light quality

Integral sensors available, including DALI/DSI digital dimming and daylight harvesting

Integral emergency and Power over Ethernet (PoE)
