

Lightplane Linear Concave

LPLC-LED
103mm x 107mm

LIGHT FORMS

Linear

Lightplane Linear Concave is a streamlined luminaire with a channel that features integral drivers along with a high impact satin diffuser lens. The fixture is available with several LED lamping options including multiple outputs and CCTs, tunable white and colour-changing RGB+White. A Low UGR option is also available.

Features

Individual luminaires, continuous runs or configured shapes

Direct distribution

Four standard output options

Tunable white and RGBW

Integral control gear as standard

DALI, 1-10V, Wireless and phase dimming

Low UGR lighting: Prismatic diffuser

Smooth dimming down to 0%

<1% output ripple current for exceptional light quality

Integral sensors available, including DALI/DSI digital dimming and daylight harvesting

Integral emergency and Power over Ethernet (PoE)
