

Trava 120

Trava 120
120mm/140mm x 80mm

LIGHT FORMS

Linear

The Trava 120 is an elegant, indirect luminaire that delivers a seamless ribbon of light, recessed within a beautifully curved, integrated reflector. It offers versatile installation options, including suspended, recessed, or surface-mounted configurations.

Features

120mm wide profile.

140mm wide trim profile.

Extensive range of high efficiency SELV tape options, allowing for fully customisable lengths.

Highly efficient remote power units and dimming controllers.

Individual lengths and continuous run.

Expertly cut and welded mitred corners.

Available in a large range of standard RAL powdercoat finishes as well as a considerable range of premium metallic finishes.

High-quality light with <1% output ripple

Tuneable White and RGBW options available.

Remote DALI, DMX, 1-10V, wireless dimming control options.
